DAY 1 – Trauma Informed Classrooms in a Pandemic

In this highly engaging workshop, participants will:

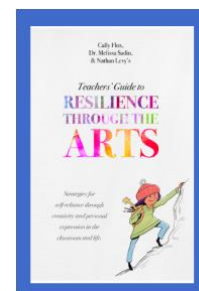

- Understand the prevalence of trauma in our schools
- Explore their own childhood adverse experience exposure
- Recognize the neurobiological and psychological impact of trauma on children
- Learn the framework for a trauma-informed classroom amid a pandemic
- Identify strategies to support students in a new normal.

DAY 2 – Creating Trauma Informed Special Education Programs

Participants will:

- Explore the intersection between trauma and special education
- Identify trauma in standardized assessments for special education
- Learn classroom strategies to support special education students with trauma.
- Consider the elements of a trauma informed IEP.

****Registered attendees will receive a link to the live webinar the day before the event.**
