

YOLO PARENTS NEEDED

FOR FOCUS GROUPS

The UC Davis Perinatal Origins of Disparities (POD) Center seeks parents of children up to 18 years who participate in Help Me Grow and live in Yolo County to take part in online focus groups about key issues in family and child health. The POD Center hopes that what we learn from these focus groups will help us to identify the most important areas for us to focus. We also hope that it will be the start of a long-term partnership that will help us to include community needs into future research and outreach.

ELIGIBILITY

- Must live in Yolo County and be a parent to at least one child aged 0-18 years old
- Must have access to a phone or be able to log on to Zoom
- Must be willing to talk about how you get access to and use services that affect health with other parents and group leaders

Focus group will last 60-90 minutes.

Participants will receive \$20 Gift Card.

WE PLAN TO HOLD FOCUS GROUPS ON:

THURSDAY, DECEMBER 3, 2020 FROM 6:00PM - 7:30 PM.
